

Human Adenylate Kinase 3 (AK3) Protein

Catalogue No.: abx166612

SDS-PAGE analysis of Adenylate Kinase 3 Protein.

Adenylate Kinase 3 Protein is a recombinant Human protein expressed in *E. coli*.

Target: Adenylate Kinase 3 (AK3)**Origin:** Human**Expression:** Recombinant**Tested Applications:** WB, SDS-PAGE**Host:** *E. coli***Conjugation:** Unconjugated**Form:** Lyophilized**Purity:** > 90%**Reconstitution:** To keep the original salt concentration, we recommend reconstituting to the original concentration prior to lyophilization (see Concentration) in ddH₂O. If a lower concentration is required, dilute in PBS, pH 7.4. If a higher concentration is required, the product can be reconstituted directly in PBS, pH 7.4, though please note that this will change the overall salt concentration. The stock concentration should be between 0.1-1.0 mg/ml. Do not vortex.**Storage:** Store at 2-8 °C for up to one month. Store at -80 °C for up to one year. Avoid repeated freeze/thaw cycles.**Molecular Weight:** Calculated MW: 28.6 kDa**Sequence Fragment:** Leu8-Pro227**Tag:** N-terminal His tag

Datasheet

Version: 2.0.0

Revision date: 06 Oct 2024

Buffer: Prior to lyophilization: PBS, pH 7.4, containing 0.01% Sarcosyl, 1 mM DTT, 5% Trehalose and Proclin-300.

Activity: Not tested

Concentration: Prior to lyophilization: 200 µg/ml

Note: This product is for research use only.
Not for human consumption, cosmetic, therapeutic or diagnostic use.

For Reference Only
