

Human Apolipoprotein B-100 Protein

Catalogue No.: abx060870

Human Apolipoprotein B-100 Protein is a lipoprotein purified from Human Plasma.

Target:	Human Apolipo B-100
Origin:	Human
Host:	Human
Conjugation:	Unconjugated
Form:	Liquid
Purity:	Does not contain Apo(a), Apo C or Apo E proteins.
Purification:	Purified by: (1) Ultracentrifugation at d 1.03-1.05, (2) Delipidation with diethyl ether:ethanol (3:1), and (3) Gel filtration over Sephacryl S-200.
Storage:	Store at 2-8 °C. Do not freeze.
Buffer:	10 mM Tris-Buffered Saline, pH 7.4, containing 10 mM Sodium Decyl Sulfate. Does not contain preservatives.
Specificity:	Cross-reacts with anti-LDL.
Concentration:	1 mg/ml
Note:	This product is for research use only. Not for human consumption, cosmetic, therapeutic or diagnostic use.
Directions for use:	Centrifuge before opening to ensure complete recovery of vial contents.
