

Mouse Calcium Channel, Voltage Dependent, R-Type, Alpha 1E Subunit (CACNa1E) Protein

Catalogue No.: abx652745

Mouse Calcium Channel, Voltage Dependent, R-Type, Alpha 1E Subunit (CACNa1E) Protein is a Recombinant Mouse protein expressed in E. coli.

Target:	Calcium Channel, Voltage Dependent, R-Type, Alpha 1E Subunit (CACNa1E)
Origin:	Mouse
Expression:	Recombinant
Tested Applications:	WB, SDS-PAGE
Host:	E. coli
Conjugation:	Unconjugated
Form:	Lyophilized
Purity:	> 90%
Reconstitution:	To keep the original salt concentration, we recommend reconstituting to the original concentration prior to lyophilization (see Concentration) in ddH ₂ O. If a lower concentration is required, dilute in PBS, pH 7.4. If a higher concentration is required, the product can be reconstituted directly in PBS, pH 7.4, though please note that this will change the overall salt concentration. The stock concentration should be between 0.1-1.0 mg/ml. Do not vortex.
Storage:	Store at 2-8 °C for up to one month. Store at -80 °C for up to one year. Avoid repeated freeze/thaw cycles.
Molecular Weight:	Calculated MW: 39 kDa Observed MW (SDS-PAGE): 42 kDa
Sequence Fragment:	Please enquire.
Tag:	N-terminal His tag
Buffer:	Prior to lyophilization: PBS, pH 7.4, containing 0.01% Sarcosyl, 1 mM DTT, 5% Trehalose and Proclin-300.
Activity:	Not tested
Concentration:	Prior to lyophilization: 200 µg/ml

Datasheet

Version: 2.0.0

Revision date: 30 Mar 2025
