

Protein Induced by Vitamin K Absence II Antibody

Catalogue No.: abx023987

Protein Induced by Vitamin K Absence II Antibody is a Mouse Monoclonal against Protein Induced by Vitamin K Absence II.

Target:	Protein Induced by Vitamin K Absence II
Clonality:	Monoclonal
Tested Applications:	ELISA
Host:	Mouse
Immunogen:	Proprietary synthetic immunogen.
Isotype:	IgG ₁
Form:	Liquid
Purity:	> 95% (HPLC as IgG purity)
Purification:	Purified from Ascites. Protein G Chromatography.
Storage:	Aliquot and store at -20°C. Avoid repeated freeze/thaw cycles.
Buffer:	Phosphate Buffered Saline, pH 7.2. Preservative: 0.09% Sodium Azide.
Specificity:	Human PIVKA-II.
Note:	This product is for research use only.
