

Horse Amyloid A Serum (SAA) Protein

Catalogue No.: abx160040

Horse Amyloid A Serum (SAA) Protein is a recombinant protein produced in E. coli.

Target: Horse Amyloid A Serum (SAA)

Origin: Horse

Expression: Recombinant

Tested Applications: ELISA

Host: E. coli

Form: Lyophilized

Purity: > 95% (Tricine-SDS-PAGE)

Reconstitution: Reconstitute with deionized water to a concentration of 0.1 to 1 mg/ml.

Storage: Store at -20°C. After reconstitution, aliquot and store at -70 °C. Avoid repeated freeze/thaw cycles.

Molecular Weight: 13.6 kDa

Buffer: Lyophilized from 0.01 M Hydrochloric Acid.

Note: This product is for research use only.
Not for human consumption, cosmetic, therapeutic or diagnostic use.
