

Human Tumor Necrosis Factor (TNF) Protein

Catalogue No.: abx069527

SDS-PAGE analysis of Human TNF alpha Protein.

Human Tumor Necrosis Factor Protein is a Human recombinant protein produced in a Prokaryotic expression system (E. coli).

This protein is the immunogen for the following antibodies: [abx131848](#)

Target: Tumor Necrosis Factor (TNF)

Origin: Human

Expression: Recombinant

Tested Applications: WB, SDS-PAGE

Host: E. coli

Conjugation: Unconjugated

Form: Lyophilized

Purity: > 95%

Reconstitution: To keep the original salt concentration, we recommend reconstituting to the original concentration prior to lyophilization (see Concentration) in ddH₂O. If a lower concentration is required, dilute in 20 mM Tris, 150 mM NaCl, pH 8.0. If a higher concentration is required, the product can be reconstituted directly in 20 mM Tris, 150 mM NaCl, pH 8.0, though please note that this will change the overall salt concentration. The stock concentration should be between 0.1-1.0 mg/ml. Do not vortex.

Storage: Store at 2-8 °C for up to one month. Store at -80 °C for up to one year. Avoid repeated freeze/thaw cycles.
