

SR3335

Catalogue No.: abx283410

SR3335 is a small molecule which can act as a ROR α partial inverse agonist. It is provided as a powder.

This product acts on the following target types: Retinoid receptor and related, Transcription factor.

This product acts on the following biochemical pathways: Transcription, Mitochondrial function, Glucose metabolism.

This product may be interest in the following research areas and diseases: Immunology, Obesity, Inflammation.

Please note that our chemical products are for research use only in a laboratory and are not for medical or veterinary use. This product can only be dispatched to a scientific business or laboratory address.

Target:	SR3335
Form:	Solid
Purity:	> 98%
Reconstitution:	Soluble in DMSO (up to at least 50 mg/ml)
Storage:	Store desiccated at -20 °C.
Molecular Weight:	405.3 g/mol
Molecular Formula:	$C_{13}H_9F_6NO_3S_2$
Buffer:	Not applicable.
CAS Number:	293753-05-6
Note:	This product is for research use only. Not for human consumption, cosmetic, therapeutic or diagnostic use.
