

## WNK463

Catalogue No.: abx283411

WNK463 is a small molecule which can act as a WNK kinase inhibitor. It is provided as a powder.

This product acts on the following target types: Kinase.

This product acts on the following biochemical pathways: Pyroptosis, TNF.

This product may be interest in the following research areas and diseases: Cell death, Hypertension, Cancer, Inflammation.

Please note that our chemical products are for research use only in a laboratory and are not for medical or veterinary use. This product can only be dispatched to a scientific business or laboratory address.
