

## Nuclear receptor ROR-beta (RORb) Antibody (Biotin)

Catalogue No.: abx340875

Nuclear receptor ROR-beta (RORb) Antibody (Biotin) is a Rabbit Polyclonal antibody conjugated to Biotin for the detection of Human RORB.

|                               |                                                                        |
|-------------------------------|------------------------------------------------------------------------|
| <b>Target:</b>                | Nuclear receptor ROR-beta (RORb)                                       |
| <b>Clonality:</b>             | Polyclonal                                                             |
| <b>Reactivity:</b>            | Human                                                                  |
| <b>Tested Applications:</b>   | ELISA                                                                  |
| <b>Host:</b>                  | Rabbit                                                                 |
| <b>Recommended dilutions:</b> | Optimal dilutions/concentrations should be determined by the end user. |
| <b>Conjugation:</b>           | Biotin                                                                 |
| <b>Immunogen:</b>             | Recombinant Human Nuclear receptor ROR-beta protein (1-269 AA)         |
| <b>Isotype:</b>               | IgG                                                                    |
| <b>Form:</b>                  | Liquid                                                                 |
| <b>Purification:</b>          | Purified by antigen affinity chromatography.                           |
| <b>Storage:</b>               | Aliquot and store at -20°C. Avoid repeated freeze/thaw cycles.         |
